DETAILED ACTION

Response to Amendment

1. The amendments filed 16 APR 2008 introduce new issues for consideration and as such will not be entered.
 - a. Claim 1 – the added nitrogen limitation and the removed hydrogen limitation would change the scope of the claim and all claims that depend from it.
 - b. Claim 1 - the addition of the 'for use' limitation would change the scope of the claim and all claims that depend from it.
 - c. Claim 6 – the addition of the Raman spectrum limitation raises a new issue of search which was not required prior to the amendment.
 - d. Claim 7 – the addition of a specific gas raises a new issue of search which was not required prior to the amendment.
2. The amendment has two added claims and only one canceled claim. Adding claims is not considered as placing the application in better condition for appeal. *Ex parte Wirt*, 1905 C.D. 247, 117 O.G. 599 (Comm'r Pat. 1905).

Response to Arguments

3. All of Applicant's arguments are based on the claims as amended. As the amendment is not being considered, the arguments dependent therefrom are not being considered.
